## PROFESSIONAL SUMMARY

Results-oriented software engineering professional with expertise in building secure applications. Excellent team player with positive attitude. Solid background building Web and mobile applications.

## TECHNICAL SKILLS

- Web-Based Software Engineering
- Database programming
- Algorithm Implementation
- Software Documentation
- Project Management
- Programming Languages: JavaScript, Python
- Frameworks: Flask, React.js, Node.js, Express.js, Flutter

## TRANSFERABLE SKILLS

### Soft Skills:

- Data analysis, problem solving, public speaking, negotiations, contracting, vendor relationships, customer relations and customer service.

### Management Skills:

- Scheduling, recruiting, interviewing, delegation, time management, project management and conflict resolution.

## EXPERIENCE

### FULL STACK ENGINEER

08/2020 to CURRENT

#### Amicus Plus | Remote

**Summary:** Instagram like web/mobile platform that allows users to safely share pictures. **IN DEVELOPMENT** will be live at (<https://www.meetgio.dev/>).

#### Responsibilities:

- Discussed project progress with customers, collected feedback on different stages and directly addressed concerns.
- Produced advanced and clean code for image sharing application.
- Evaluated project requirements and specifications and developed software applications that surpassed client expectations.

#### Technologies used:

- React.js, Node.js, Express.js, Flutter (Mobile), PostgreSQL, HTML, CSS, and JavaScript.

### FULL STACK ENGINEER

05/2020 to 07/2020

#### Focus Logistics | Remote

**Summary:** Manage FOB loads across country and collects data to display load KPI's for stakeholders. See live at (<https://www.meetgio.dev/>).

#### Responsibilities:

- Gathered and defined customer requirements to develop clear specifications for creating well-organized project plans for load tracking tool.

- Tested troubleshooting methods, devised innovative solutions, and documented resolutions for inclusion in knowledge base for support team use.
- Orchestrated efficient large-scale software deployments, including testing features and correcting code.

**Technologies used:**

- Python, Flask, PostgreSQL, HTML, CSS, and JavaScript.

**SOFTWARE ENGINEERING INTERN**

*05/2020 to 06/2020*

**JPMorgan Chase | Remote**

- Prepared and submitted reports and other documentation to assist development team members.
- Wrote all technical documentation for new software in development.
- Produced clean, validation-ready code for project needs.
- Analyzed source code to identify and rectify potential functionality issues.
- Supported software engineering projects in Agile work environment.

**Technologies used:**

- React.js, Python, Node.js, HTML, CSS, and SQL.

**EDUCATION**

**Associate of Science** | Information Technology, Programming & Software Dev

*07/2019*

**Purdue University Global, Online**

**Bachelor of Science** | Computer Science

*EXPECTED IN 05/2022*

**Southern New Hampshire University, Hooksett, NH**

**Certificate** | Software Engineering

*EXPECTED IN 12/2020*

**Springboard, Online**
